## Guidelines for patient and citizen organisations

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for this call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific submission and reporting requirements
Deutsches Zentrum für Luft- und Raumfahrt e.V., (DLR) on behalf of EP BrainHealth	<a href="mailto:brain-health@dlr.de">brain-health@dlr.de</a>	Patient organisations or citizen organisations only. Definition of eligible organisations: Patient organisations or citizen organisations are defined as not-for-profit organisations, which are patient or citizen focused, and where patients and/or carers and/or family members of patients or representatives of citizens (e.g. communities, populations) represent a majority of members in governing bodies. These are: • Umbrella organisations (e.g.	Expenses recognised as eligible are: personnel costs and operating expenses (travels, meeting, conference registration, etc.) but excluding office and IT equipment (workstation, mobile phone, tablets, etc.). Only staff costs are eligible, in proportion to the time spent on the project, with justification in the form of a time sheet. Operating expenses must be	350.000 €	7	Max. 50.000 € per project (if more than one organisation representing patients or citizens is participating in one consortium the amount should be shared). The same organisation can max. participate in 3 applications submitted to the call.	Please check with the national funding agency of your residence country if you are eligible for national funding from their side. <b>Only if confirmed that you are not eligible for national funding, you may request funds from the EP BrainHealth.</b> Criteria to be fulfilled by patient organisations or citizen organisations: <b>Legitimacy:</b> the organisation should be formally established and registered as a not-for-profit organisation in one of the EU Member States or Associated Countries. <b>Mission/objectives:</b> the organisation shall

		<p>representing either European organisations and/or national umbrella organisations for patients or citizens);</p> <ul style="list-style-type: none"> <li>• European national organisations representing patient or citizen communities (i.e. representing national organisations or individual patients or citizens); and</li> <li>• National organisations representing patient or citizen communities</li> </ul>	<p>documented in the accounts. Expenditure on general, administrative and / or infrastructure costs is eligible respecting the maximum of 50.000 € total budget per project. All justifications and supporting documents are auditable by DLR or by any representative appointed by it during the project and a period of 5 years after the end of EP BrainHealth.</p>			<p>have its mission/objectives clearly defined.</p> <p><b>Structure:</b> Includes in its governing structure a designated representative legally authorised to sign a contract with DLR on behalf of EP BrainHealth.</p> <p><b>Accountability:</b></p> <ul style="list-style-type: none"> <li>• With proven activities such as patient/patient family/citizens support and/or advocacy activities and/or health research.</li> <li>• Can demonstrate that its account system is able to trace all costs related to the project and archive these costs for a duration of 5 years after the end of EP BrainHealth.</li> </ul> <p><b>Transparency:</b></p> <ul style="list-style-type: none"> <li>• The organisation shall be financially independent, particularly from the private sector (max. 50% of funding from several companies) and disclose to EP BrainHealth its sources of</li> </ul>

# European Partnership for BrainHealth 2026

## Belgium/Flanders (FWO)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for his call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
The Research Foundation – Flanders (FWO)	Kristien Peeters +32 (0)2 550 15 95  Toon Monbaliu +32 (0)2 550 15 70  <a href="mailto:europa@fwo.be">europa@fwo.be</a>	The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of FWO funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake (i.e. more fundamental in nature vs. strong valorization potential).  The scope and the eligibility of	The FWO foresees a budget of 700.000 EUR, which guarantees at least two projects.  The respective funding channel regulations apply (see links to national rules in the 'Eligible Institutions' section).  Both are <b>capped at max. 350.000 EUR per project/consortium</b> (incl. overhead, for which the calculation method diverges per	700.000 EUR in total.	2-3	350.000 EUR (overhead included)	<b>!! IMPORTANT !!</b> Applicants for FWO funding must submit a <b>mandatory administrative application via the <a href="#">FWO E-loket</a></b> .  - For fundamental research projects (FO) select the application type: 'Research projects – European programme fundamental research'.  - For strategic basic research projects (SBO) select the application type: 'Research projects – European programme strategic basic research'.  In case the consortium includes more than one partner

		<p>institutions and its researchers can be verified in the relevant chosen funding channel regulations, which can be consulted on the FWO website:</p> <p><u><a href="#">_ FWO Research Projects (FO)</a></u></p> <p><u><a href="#">_ Strategic Basic Research (SBO)</a></u></p> <p><b>Or by contacting the FWO contact points that are mentioned.</b></p>	<p>funding channel - see explanation below).</p> <p>- For the <b>overhead calculation</b>, the fundamental (FO) and strategic research projects (SBO) use the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of <b>6% for 'FO projects'</b>, and a <b>17% overhead rate for 'SBO projects'</b>. Some practical examples:</p> <p>→ <u>FO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested</p>			<p>requesting funding from FWO, <u>a single online form</u> should be submitted by the main PI (promotor(-spokesperson)) itself, through its personal 'e-loket', containing all relevant information for the different Flemish partners.</p> <p><b>- The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call</b> (pre-proposal stage).</p> <p>- To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance. <u>Failure to comply with these requirements can lead to ineligibility.</u></p> <p>- Participation in this call does not interfere with the 'regular/national' project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. <b>However,</b></p>
--	--	--	---	--	--	--

			<p>cost is 212.000 EUR.  <b>This total re-requested cost may never exceed the max. available amount of 350.000 EUR.</b></p> <p>→ <u>SBO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR.  <b>This total re-requested cost may never exceed the max. available amount of 350.000 EUR.</b></p> <p><b>Overhead should be mentioned in the Brain Health budget tables, but it should <u>not</u> be inserted in the</b></p>				<p><b>researchers can only participate within 2 different international consortia in this call.</b></p> <ul style="list-style-type: none"> <li>- Projects aiming at the development of a spin-off company are not eligible in this context. As such, this route should not be mentioned in the administrative FWO registration document.</li> <li>- Patient organizations cannot be directly funded by the FWO (and cannot apply for funding themselves consequently). They can be subcontracted by an eligible research institution from Flanders though. Contact the FWO for more information.</li> <li>- The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the <a href="#">FWO Research Projects</a> and article 14 of the <a href="#">Strategic Basic</a></li> </ul>
--	--	--	--	--	--	--	--

			<p><b>national/regional FWO mandatory administrative application on the FWO E-loket</b> (See 'Specific national submission and reporting requirements')</p>				<p><u>Research (SBO)</u> regulations do not apply here.</p> <p>- The PI, for each of the participating institutions applying for FWO funds, must hold an <b>appointment that fully covers the duration of the research project</b>. Linked to the above, when it comes to the <u>FWO research project regulations (FO)</u>: article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted <b>emeritus status</b> during the calendar year of submission of the project application or during the duration of the project execution, are <b>not eligible</b>.</p>

## Germany (DFG – German Research Foundation)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for his call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
DFG German Research Foundation (DFG) www.dfg.de	Dr. Anke Ley anke.ley@dfg.de  Tel. +49 (228) 885-3197	The general DFG rules and conditions as defined in the current DFG form 50.01 "Guidelines Research Grants Programme" apply.  <b>Note:</b> Researchers working at institutions which serve purely commercial purposes or	Eligible cost categories (related to specific Programme Modules) are specified in DFG forms 52.01-52.07 and 52.14, available on the DFG website, see <a href="#">Link</a> .  The standard module that fits most needs is the <b>Basic Module</b> .	402.600€ (incl. overheads*)	DFG participation in 1-2 consortia (i.e. about 1-4 projects)	max. 400.000€ (incl. overheads*) per consortium; i.e. if two German partners participate in a consortium, the sum of funding requested by both groups must not exceed 400.000€ (incl. overheads*)	Please note that there are two German funding organisations (BMBF and DFG). Proposals selected for funding will be assigned to BMBF and DFG by the management organisations. Applicants from non-university research institutes are strongly advised to follow BMBF regulations (e.g. regarding the calculation of overheads), whereas applicants from universities should refer to the DFG's funder-specific information. In case your full proposal will be accepted for funding, there will be an additional application step with the

		<p>those who are not permitted to publish findings in a generally accessible form are not eligible to apply. Industry is not eligible; some restrictions for non-university public research institutes; for further information see Guidelines on the Duty to Cooperate for members of non-university institutions with permanent positions (<a href="#">DFG form 55.01</a>).</p> <p>Any duty to cooperate for DFG applicants at non-university research institutions can</p>					<p>German Funding agencies to finalize the funding. Applicants will receive a personalized invitation to submit the proposals in the electronic systems of the respective funding organization.</p> <p>Funding recommendations from the panel will be subject to approval by the partner organizations and DFG decision bodies, taking into account the availability of funds.</p> <p>Clinical Studies: Please note that interventional clinical trials, including feasibility studies or confirmatory interventional trials or observational studies with the primary aim to prove the efficacy of a therapeutic, diagnostic or prognostic method cannot be funded by the DFG within EP BrainHealth.</p> <p>Ethics regulations:</p>
--	--	---	--	--	--	--	--

		<p>only be fulfilled through cooperation with a partner at a German university.</p> <p>If applicable, please refer to our <a href="#">Guidelines on the Participation of Commercial Enterprises in Research Projects**</a>.</p>					<p>All applicants conducting experiments in/with humans or human material have to submit an ethical approval and/or a positive vote from the relevant national or local ethics committee(s). If an ethics vote is required for the German or foreign part of the project, it must be submitted with the full-proposal. However, an ethics vote by the local German ethics committee can, as an exceptional case, be submitted no later than three months upon proposal submission. Otherwise, the DFG may stop processing the application. Please note that the submission of a German ethics vote is also necessary if only the project part abroad is affected as it is a cooperation project. German ethics committees can adopt the vote of the foreign ethics committee as its own.</p>
--	--	---	--	--	--	--	--

							<p>Applicants with fixed-term contracts: The proposal must contain the information that the employment relationship is fixed-term and also indicate the date that it ends. An informal statement from the management of the institute confirming that the applicant will continue to be employed throughout the duration of the project is helpful.</p> <p>Privacy Policy: Please note the DFG's data protection notice on research funding, which can be viewed and downloaded at <a href="http://www.dfg.de/privacy_policy">www.dfg.de/privacy_policy</a>. If necessary, please also forward this information to those individuals whose data will be processed by the DFG due to their involvement in your project.</p> <p>Good Scientific Practice</p>
--	--	--	--	--	--	--	--

							<p>According to a resolution of the DFG General Assembly, DFG funding may only be awarded to research institutions that have implemented the guidelines laid down in the <a href="#">Code of Conduct for Safeguarding Good Research Practice</a> in their own regulations. The management of your institution is responsible for implementing the guidelines in a legally binding manner. In order to avoid delays in the disbursement of funding, please verify implementation within your institution in good time. For information regarding the implementation, please refer to the <a href="#">Research Integrity Portal</a>. If you have any questions on this subject, please contact the <a href="#">Research Integrity team</a> at the DFG Head Office.</p>
--	--	--	--	--	--	--	--

							<p>The DFG strongly welcomes proposals from researchers of all genders and sexual identities, from different ethnic, cultural, religious, ideological, or social backgrounds, from different career stages, types of universities and research institutions, and with disabilities or chronic illness.</p>
--	--	--	--	--	--	--	--

\* The "Programmpauschale" will generally amount 22% of the total project expenditure.

\*\* If commercial companies are involved in the project, a cooperation agreement must be concluded. The model cooperation agreement provided by the DFG ([www.dfg.de/formulare/41\\_026/](http://www.dfg.de/formulare/41_026/)) or the DESCA model cooperation agreement provided by the EU can be used for this purpose.

When using the DESCA model cooperation agreement, the following must be observed with regard to the granting of rights of use to the commercial enterprises involved in the project regarding the work results achieved by the DFG grant recipients in the funded project: If these rights of use, granted by the DFG recipients, are to be utilised by the commercial enterprises for the purpose of exploiting the work results achieved by the commercial enterprises in the project, 'fair and reasonable conditions' must be agreed for the rights of use, with the agreement of the "financial terms" variant (see Section 9.4.1 Option 1 of the DESCA model cooperation agreement in conjunction with Annex 5 of the Annotated Grant Agreement (Specific Rules on IPR)). In principle, the market value of the work results achieved by the grant recipient must be taken into account.

This contribution is granted under the explicit condition that research proposals with a primary focus on dementia are eligible to receive support from Alzheimer Nederland</p>	5-6	<p>€275K for Dutch project partners. €325K for Dutch project coordinators.</p>

#### Specific national submission and reporting requirements

**An applicant may only request ZonMw funding for one project (part of a European consortium) in this call.**

**Only proposals recommended for funding will be invited by ZonMw at a later stage to submit an additional application.** Funded projects will be subject to standard ZonMw Grants Conditions. Make sure to consult the ZonMw Open Access publication and Data management policies.

**Cross-check:**

ZonMw will avoid double funding and will not finance projects or part of projects that have been funded through other calls.

ZonMw will cross-check the proposals submitted to ZonMw through the national and international calls for possible demands of double funding.

The following costs are eligible:

- Personnel costs
- Travel costs when incurred for, for example, consortium meetings to discuss the research
- Costs of instruments and equipment to the extent and for the period used for the project
- Dissemination and knowledge exchange costs
- Data management / data steward
- Open access costs with a maximum of €5.000,-/project

All costs as long as they are used for the research project.

Awarded projects will need to deliver a Consortium Agreement (CA) and a Data Management Plan. With regards to the Consortium Agreement ZonMw requests a copy of the CA, signed by all partners, within 3 months after the project start date.

For more information, please consult the **ZonMw financial conditions** or your national contact person.

## State aid

No grants will be awarded by ZonMw if this would or could constitute unlawful state aid<sup>1</sup>. When research organizations<sup>2</sup> receive grants for research activities, there is no state aid. When non-research organizations receive grants for research activities, there is state aid.

Therefore, the following state aid measure applies to this funding round:

### *General Block Exemption Regulation*

The General Block Exemption Regulation (hereinafter GBER) will be used in this funding round, by which grants allocated under this call for grant applications are designated as a permissible form of state aid. This means that there are conditions for funding and rules for budgets. In addition, applicants are required to make declarations about certain data.

If collaborative projects are involved<sup>3</sup> in which multiple undertakings could benefit from state aid, then all undertakings eligible to claim a grant must meet the conditions of the GBER. This means that all the conditions and requirements arising from the GBER apply equally to the full extent to all undertakings in the collaborative project eligible to claim a grant. ZonMw informs the European Commission of this grant call by means of a notification as referred to in Section 11 of the GBER.

To qualify for a grant under the General Block Exemption Regulation (GBER), in addition to the substantive criteria of this call for grant applications, applicants must meet a number of specific requirements under the GBER. You can find these below.

- ZonMw will not award a grant if it is not sufficiently plausible that your application meets all the definitions and conditions of the GBER, or if – in the opinion of ZonMw – awarding the grant would lead to awarding state aid unlawfully within the meaning of Article 107 of the Treaty on the Functioning of the European Union (TFEU)<sup>4</sup>.
- ZonMw will not award a grant if the date of commencement of the work on the project or the date of commencement of the activities is earlier than the date of submission of the grant application<sup>5</sup>.
- ZonMw will not award a grant to undertakings against which a recovery order has been issued as a result of a previous decision by the European Commission declaring aid granted by the Netherlands to be unlawful and incompatible with the single market<sup>6</sup>. When submitting your grant application, please attach a completed and signed [Declaration order for recovery of state aid](#) (in Dutch).

<sup>1</sup> Section 107 of the Treaty on the Functioning of the EU (TFEU).

<sup>2</sup> As defined in EU state aid legislation: Framework for state aid for research and development and innovation (R&D&I Framework) (2014/C 198/01), Section 15(ee).

<sup>3</sup> An undertaking as defined under EU state aid legislation means any entity that performs economic activities, regardless of its legal form or means of financing.

<sup>4</sup> Section 1(5) GBER.

<sup>5</sup> Section 6 GBER.

<sup>6</sup> Section 1(4)(a) GBER.

- ZonMw will not award a grant to undertakings in difficulty<sup>7</sup>. When presenting your grant application, please attach a completed and signed [Declaration undertaking not in difficulty](#).
- Accumulation of grants or other types of state aid for the same eligible costs (entirely the same or partly overlapping) may not result in exceeding the maximum aid intensity. If an administrative body or the European Commission has awarded a grant for the same eligible costs (entirely the same or partly overlapping), ZonMw will only award an amount such that the total amount of the grant does not exceed the amount that may be allocated based on the GBER<sup>8</sup>. When submitting your grant application, please attach a completed and signed [Declaration on the accumulation of state aid](#).

Based on article 25 of the GBER, ZonMw is allowed to provide state aid in the form of a grant for research activities for the following activities:

Activity falls under 'fundamental research'<sup>9</sup>:

- non-research organizations: economic activity, the provision of funding constitutes state aid. Permitted funding can be granted using article 25, paragraph 2(a), of the GBER. The aid intensity is 100%.

Activity falls under 'industrial research'<sup>10</sup>:

- non-research organizations: economic activity, the provision of funding constitutes state aid. Permitted funding can be granted using article 25, paragraph 2(b), of the GBER. The aid intensity is 50%, which can be increased to 80% if certain conditions are met (see table below).

	Big enterprise	Medium-sized enterprise	Small enterprise
Aid intensity (basic)	50%	50%	50%
Increased aid intensity: type of enterprise	-	10%	20%
Increased aid intensity: results of the project are widely disseminated	15%	15%	10-15% (by maximum of 80%)
Co-financing	35%	25%	20%

<sup>7</sup> Section 1(4)(c) GBER. Financial difficulty as referred to in Section 2(18) of the GBER.

<sup>8</sup> Section 8 GBER.

<sup>9</sup> Section 2(84) GBER.

<sup>10</sup> Section 2(85) GBER.

Please use the ZonMw [budget format for GBER](#) as basis for the budget calculations. Co-financing is mandatory and refers to the percentage of costs that are not eligible for grant. In the budget, you must include the full costs of the entire project and indicate which costs are covered by the requested grant amount and which costs are financed with co-financing (in cash or in kind).

When applying for the grant, it must be determined whether the enterprise is a small or medium-sized enterprise. Therefore, the [EU SME Self-Assessment Wizard](#) must be completed when submitting the subsidy application. The form must be generated no more than 14 days before submitting the application.

<sup>1</sup> as defined in Annex I to Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (hereinafter referred to as “Commission Regulation (EU) No 651/2014”);

<sup>2</sup> as defined in Commission Regulation (EU) No 651/2014;

			<p>4. subcontracting – used exclusively for the research activity; this cost category shall not exceed 70% of all eligible costs of a project</p> <p>5. overhead – incurred indirectly as a result of the research project. That costs for enterprises include costs related to consumables, travel and other direct costs. Additional overheads costs should account 20% of eligible direct project costs and are counted as a multiplication by percentage given above (called x%) and the rest of direct costs; It means <math>5 = (1+2+3+4) \times 20\%</math>.</p> <p>For more details on eligible costs, applicants are advised to check cost eligibility guide (przewodnik kwalifikowalności kosztów) in the call announcement on NCBR webpage:  <a href="https://www.gov.pl/web/ncbr">https://www.gov.pl/web/ncbr</a></p>		<p>single applicant or max. 440 000 € for group of entities.</p> <p>The additional amount of funding shall be spent on personnel costs (costs of employment of Ukrainian Researcher) or equipment or consumables or travel and overhead needed to perform their work.</p>	justified and described in the proposal.
--	--	--	---	--	---	--

Participating entities must be established as legal persons<sup>3</sup> and must conduct business, R&D activity or any other activity on the territory of the Republic of Poland, confirmed by an entry into the relevant Polish official register<sup>4</sup>.

For enterprises it is strongly advised to state in the pre-proposal application form the KRS (National Court Register) number of the enterprise and the size of the enterprise (micro/small, medium, large);

For a group of entities to participate as an Applicant in the call, it must formally exist on the date the pre-proposal is submitted. This existence must be evidenced by an agreement made by the members - at least conditionally - to create the group of entities (consortium).

An Ukrainian researcher:

1. has Ukrainian citizenship, holds at least a Master (Магістр) or Specialist (Спеціаліст) degree obtained in Ukraine (or an equivalent degree obtained outside Ukraine). As a result of the armed conflict on the territory of Ukraine, the researcher is either :
  - a) a resident in Poland who arrived in Poland no earlier than 24 February 2022; or
  - b) a resident in Ukraine unable to continue their academic career or work in research and development (R&D)
2. is employed by a Polish Applicant under the relevant contract. Both the Polish Applicant as well as the Ukrainian researcher, undertake to comply with Polish employment law.
3. contributes to research works in the project, i.e. industrial research and/or experimental development. The added value of their participation in the project must be scientifically justified and described in both the proposal and the national application.

The Polish Applicant shall provide documentary evidence confirming that all eligibility criteria of Ukrainian researcher are met. Such evidence shall include, but not be limited to: proof of Ukrainian citizenship, academic qualifications, residence status and date of arrival, proof of employment under relevant contract with the Polish Applicant, and documentation demonstrating the researcher's contribution to the project. The evidence shall be submitted on NCBR request in due time.

Funding quotas for Polish participants may reach up to 100% for universities and research organisations. For enterprises, the quota will be determined on a case-by-case basis, taking into account company size and the type of research and development activity, pursuant to Section 2 of the Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development (Journal of Laws 2020, item 1456).

---

<sup>3</sup> Legal person - an entity that is capable of having and amending legal rights and obligations within a certain legal system, such as to enter into contracts, sue, and be sued, excluding natural persons;

<sup>4</sup> if applicable.

In any case only Industrial Research and Experimental Development are eligible for funding. Other activities (e.g. coordination, dissemination, management) shall not be included into separate tasks.

	Large Enterprises	Medium Enterprises	Small Enterprises	Universities and research organizations
Fundamental/Basic Research	Not eligible	Not eligible	Not eligible	Not eligible
Industrial Research	Up to 50+5/15/25 (max 75 %)	Up to 50+10+5/15/25 (max 80 %)	Up to 50+20+5/15/25 (max 80 %)	Up to 100 %
Experimental development	Up to 25+5/15/25 (max 50 %)	Up to 25+10+5/15/25 (max 60 %)	Up to 25+20+5/15/25 (max 70 %)	Up to 100 %

For entrepreneurs independently undertaking projects at the national level (meaning there is no Polish group of entities or Polish group of enterprises), there is no possibility of increasing the intensity of state aid for industrial research and experimental development based on the condition of effective cooperation between entrepreneurs or between entrepreneurs and research organisations.

Only Industrial/Applied Research and Experimental Development will be funded. Other type of activities (e.g. coordination, dissemination, management) is not eligible for funding as separate research tasks in the project schedule.

After international evaluation of full proposals and the selection of projects to be funded, Polish participants will be invited to submit a National Application Form (NAF). The NAFs will be examined for the appropriateness of funding requested. The Polish participants are obliged to use the rate of exchange of the European Central Bank dated on the day of opening of the call. If more than one Polish entity participates in the project, the national application is submitted by a consortium (group of entities) of all Polish partners. Document templates are available at: <https://www.gov.pl/web/ncbr/wniosek-krajowy-w-lsi>

#### **Relevant documents:**

All proposals must be aligned with national regulations, inter alia:

- The Act of 20 July 2018 - Law on Higher Education and Science;
- The Act of 30 April 2010 on the National Centre for Research and Development;

- The Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, which is in line with the Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation);
- The Regulation of the Minister of Science and Higher Education of 17 September 2010 on the detailed mode of performance of tasks of the National Centre for Research and Development.
- The Regulation of the Minister of Funds and Regional Policy of 1 December 2023, amending the Regulation on granting state aid by the National Centre for Research and Development.

We encourage you to learn about and use our "PartFinder" (Partner Search Tool), which allows you to match science and industry entities from around the world with each other. The search engine is available at: <https://partfinder.ncbr.gov.pl/>

## FCT - Portugal

Information type	Details
<b>Applicable regulation</b>	Applications requesting funding from FCT under this call will be subject to <a href="#">Regulation on projects funded solely by national funds</a> , published in Regulation No. 999/2016, in its current wording, that is, as amended and republished by Regulation No. 5/2024 of 3 January, and corrected by Rectification Statement No. 366/2024/2, published in the <i>Diário da República</i> , 2nd series, No. 100, of 23 May 2024, and by all other applicable national and European Union legislation.
<b>Type of beneficiaries</b>	For information on the type of beneficiaries eligible for FCT funding under this call, see article 3 of <a href="#">FCT Regulation</a> .
<b>Criteria of beneficiaries” eligibility</b>	For information on the criteria of beneficiaries” eligibility, see article 5 of <a href="#">FCT Regulation</a> .
<b>Criteria of projects” eligibility</b>	For information on the criteria of projects” eligibility, see article 6 of <a href="#">FCT Regulation</a> .
<b>Funding allocation to be granted and conditions</b>	<p>FCT budget allocation is <b>250,000 €</b> for each call.</p> <p>The maximum amount of funding to be requested to FCT per proposal with a <b>Portuguese Coordinator</b> is <b>150.000,00€</b>.</p> <p>The maximum amount of funding to be requested to FCT per proposal with a <b>Portuguese Project Applicant</b> is <b>100.000,00€</b>.</p> <p>If more than one Portuguese applicant participating in the <b>same international consortium</b> applies for funding by FCT, the <b>combined funding</b> demanded by all the Portuguese applicants <b>may not exceed the maximum financial threshold for proposals with a Portuguese Coordinator (150.000,00€)</b> or with a <b>Project Applicant (100.000,00€)</b>. Portuguese Coordinators and/or Project Applicants in the same international consortium will therefore have to share the funding that will be granted by FCT.</p> <p>information on funding rates, see no. 2 of article 7 of <a href="#">FCT Regulation</a>.</p>
<b>Limits to the number of applications to be submitted by the RC and the beneficiary</b>	In agreement with the general call criteria.
<b>Rules and limits to the expense eligibility</b>	<p>For the purposes of defining the budget, the terms defined in article 8 of <a href="#">FCT Regulation</a> apply to <b>eligible expenses</b> and in article 9 to <b>non-eligible expenses</b>.</p> <p>Excluded from the range of eligible expenses are the <b>salaries and other remuneration supplements</b> of teachers, researchers and other staff with a previously established indefinite contract with the Public Administration.</p> <p>Expenditure on <b>adapting buildings and facilities</b> is limited to a maximum of 10% of the project’s total eligible expenses.</p> <p>The <b>project’s indirect costs</b> are based on the application of a flat rate of 25% of the direct eligible costs.</p>

Information type	Details
<b>Applicable forms of payment</b>	In accordance with no. 1 of article 7 of the <a href="#">FCT Regulation</a> , the funding to be granted to proposals requesting funding from FCT under this call is non-reimbursable and is based on <b>real costs</b> . As such it must be justified through invoices paid or other accounting documents of similar probatory value, under the terms of no. 5 of article 8 of <a href="#">FCT Regulation</a> .
