

MARCELLE JARDINIER GRANT

The Marcelle Jardinier Fund was established thanks to the generosity of Professor Marcelle JARDINIER, Honorary Associate Professor at the Faculty of Science, Chemistry Section, who passed away in 2021.

The purpose of the Marcelle Jardinier Fund is to provide financial support for fundamental research in Physics, Chemistry, and Astrophysics within the Faculty of Science.

The grant, with a maximum amount of €8,000, is awarded alternately to each discipline to support the purchase of small laboratory equipment, travel grants for scientific staff, or participation in conferences for researchers (non-exhaustive list). For the year 2025, the grant will be awarded to the Department of Physics. Recipients will have two years from the date of award to use the allocated funds.

When and how to apply

Applications must be submitted to the Faculty of Science no later than 15 December 2025.

Each application must include the applicant's CV, a two-page description of the research project, a provisional budget, and any supporting documents related to the planned expenses.

All documents should be submitted by email to: aff.acad.sciences@ulb.be
