CHAPTER V: FINANCIAL PROVISIONS7

APPENDIX 18

APPENDIX 210

APPENDIX 312

APPENDIX 416

CHAPTER I: SCOPE – NATURE OF THE FELLOWSHIP

Article 1

The rules and regulations hereinafter are only applicable to holders of a part-time Medical Doctor Applicant to an MSc and a Ph.D. (CSD – *Candidat·e spécialiste doctorant·e*) fellowship of the Fund for Scientific Research - FNRS (F.R.S.-FNRS).

CSD applications must be submitted under Grants and Fellowships Call of the Fund for Scientific Research - FNRS (F.R.S.-FNRS).

Article 2

Holders of a part-time CSD fellowship shall pursue their studies leading to a Ph.D. in one of the fields of the health sector listed in [Appendix 1](#) in a university of the French-speaking Community of Belgium and undertake an Advanced Master simultaneously under the supervision of a promoter, while pursuing a part-time activity in a hospital.

CHAPTER II: APPLICATION

Article 3

Applicants to a part-time CSD fellowship must have obtained the academic degree of Medical Doctor at the latest by 1st October of the year during which the fellowship is granted and should start.

Article 4

The promoter of an applicant to a part-time CSD fellowship must meet the following conditions altogether:

- Be permanently appointed¹ to an academic or scientific position or on probation in a university of the French-speaking Community of Belgium which has a faculty of medicine offering a complete curriculum.
- This appointment must have a final and conclusive assent from the competent body to legitimize this appointment in accordance with the Law or the university regulations by the time of the validation deadline set for the academic authorities (rectors) at the latest.
- This academic or scientific position must be effective by the time of the starting date of the fellowship, i.e., by 1st October of the year of the Grants and Fellowships Call concerned at the latest.

If the promoter of an applicant to a part-time CSD fellowship who is appointed permanently accesses the legal age of retirement / becomes professor emeritus after the validation deadline set for the academic authorities (rectors) and before the end of the funding scheme in case of granting, the submission of the application shall be subject to prior approval by the Head of institution where the research will be carried out.

The promoter permanently appointed who will access the legal age of retirement / become professor emeritus by the validation deadline set for the academic authorities (rectors) is not eligible.

¹ Research logisticians of rank A, as defined by the Royal Decree of 31st October 1953 fixing 'le statut des agrégés, des répétiteurs et des membres du personnel scientifique des universités de l'État', are not eligible as promoters of doctoral fellowships.

The researcher-promoter of a Ulysse Incentive Grant for Mobility in Scientific Research (MISU) who genuinely carries out the fellowship by the time of the starting date of the fellowship, i.e., by 1st October of the year of the Grants and Fellowships Call concerned at the latest, may be promoter of an applicant to a part-time CSD fellowship.

Also applicants to a part-time CSD fellowship may conduct their research project under the supervision of a postdoctoral co-promoter from one of the institutions listed in [Appendix 2](#).

Article 5

During the entire clinical training period, applicants to a part-time CSD fellowship must be under the supervision of a training supervisor who performs their clinical activity in a university hospital (as defined in the federal regulations) or a university hospital department as identified by the F.R.S.-FNRS in [Appendix 3](#).

During their part-time CSD fellowship:

- Applicants shall carry out most of their clinical training in a university hospital or a university hospital department located in French-speaking Community of Belgium (as defined in the federal Law) listed in [Appendix 4](#).
- Applicants may carry out their clinical training for a maximum of 12 months full-time equivalent in a Belgian non-academic hospital or a Belgian hospital department not related to a university (as defined in the federal Law).

Article 6

All applicants who will have completed their specialisation before the end of their part-time CSD fellowship must carry out their clinical activity for the remaining period of the fellowship in a university hospital (as defined in the federal regulations) or a university hospital department as identified by the F.R.S.-FNRS in [Appendix 3](#).

Article 7

During their part-time CSD fellowship applicants must carry out their research activity in a university of the French-speaking Community of Belgium which has a faculty of medicine offering a complete curriculum, a university hospital (as defined in the federal regulations) or a university hospital department as identified by the F.R.S.-FNRS in [Appendix 3](#).

Article 8

Applicants may not apply more than three times for the same fellowship. Applicants who have already benefited from the fellowship, regardless of the duration, may not apply either.

No applicant may apply for a part-time CSD Renewal fellowship if they have not been granted with a part-time CSD fellowship.

Applicants to a part-time CSD fellowship who have already benefited from another F.R.S.-FNRS fellowship, regardless of the duration, may not apply, with the exception of a first F.R.S.-FNRS Research Fellow fellowship or a first grant from the Fund for Research Training in Industry and Agriculture (FRIA-*Fonds pour la Formation à la Recherche dans l'Industrie et dans l'Agriculture*). In that case, only two renewals of the part-time CSD fellowship will be authorised.

Article 9

The Grants and Fellowships Call is opened once a year and is published on the F.R.S.-FNRS website.

Only one application for a part-time CSD fellowship can be submitted, in French or in English. It must only be submitted on [e-space](#), the online platform dedicated to the calls for proposals.

Applicants to a part-time CSD Renewal (CSD-REN) fellowship are given access to the electronic form by the F.R.S.-FNRS on [e-space](#).

Applicants are recommended to submit their application in English².

All applications (CSD and CSD-REN) are submitted to a procedure including three successive electronic validations on the dates that will be indicated when the call is published:

- a. The validation by the applicant: it accounts as a confirmation that the applicant has submitted an application.
- b. The validation by the promoter selected pursuant to article 4: the F.R.S.-FNRS transfers the application file to promoters so that they give their approval for the submitted research project and confirm the accuracy of the data mentioned in the application file. The promoter may accept or refuse the application.
- c. The validation by the research administration (or Board of Education) of the university of the French-speaking Community of Belgium, to which the application file is transferred once promoters have given their consent. The academic authority may accept or refuse the application. The validation deadline set for the rectors puts a final end to the call for proposals.

Applications that have not been validated within the time-frame of the call cannot be taken into account.

No further change or modification to the proposal can be made after the validation deadline by the applicant.

A mini-guide specifies the validation dates as well as the documents which must be included in the application.

Article 10

All part-time CSD-REN application files must include:

- The latest specialisation internship programme approved by the French-speaking Community of Belgium;
- The letter from the training supervisor, who commits to respecting the specificities related to the part-time fellowship as well as verifying that the specialisation internship programme does meet the provisions in article 5.

Applicants to a part-time CSD-REN fellowship who will have completed their specialisation must include the letter of agreement from the head of the clinical department. By their approval, the head of the clinical department commits to respecting the specificities related to the part-time fellowship.

² Should the application file be submitted in French, the F.R.S.-FNRS may require the applicant to provide a translation in English for the purpose of conducting the [ex-ante evaluation](#).

Article 11

First and third renewal applications to a part-time CSD fellowship are assessed by Supervisory Panels (Thesis Advisory Committees). The Renewal application form includes a document to be completed by the Supervisory Panel (Thesis Advisory Committee). This Advisory opinion must be signed and sent to the research unit (or Board of Education) of the university of the French-speaking Community of Belgium in order to be approved and signed by the academic authorities. The latter must send the document to the F.R.S.-FNRS by 31st May of the year of the Grants and Fellowships Call concerned at the latest.

Second renewal applications are assessed by the relevant Scientific Commission.

CHAPTER III: ALLOCATION AND DURATION OF THE FELLOWSHIP

Article 12

The F.R.S.-FNRS Board of Trustees shall decide on the allocation of part-time CSD fellowships.

First and third renewal applications are granted upon the positive recommendation of the Supervisory Panel (Thesis Advisory Committee).

Second renewal applications are granted on the recommendation of the Scientific Commission.

Article 13

The part-time CSD fellowship is a research fellowship applicable for 2 years maximum, renewable three times (equivalent to a duration of 8 years maximum).

The part-time CSD fellowship may begin at any time of the specialisation. However, it must end at the latest 4 years after the end of the specialisation.

CHAPTER IV: OBLIGATIONS OF THE FELLOWSHIP HOLDERS

Article 14

Holders of a part-time CSD fellowship must meet the following conditions at the latest on 1st October of the year when the fellowship is granted and should start:

- To take part in a specialisation internship programme approved by the French-speaking Community of Belgium;
- To be enrolled in an Advanced Master programme in a university of the French-speaking Community of Belgium;
- To be employed on a full-time basis in a hospital in Belgium.

Article 15

Holders of a part-time CSD fellowship must inform the F.R.S.-FNRS before any change occurs in the fellowship.

Article 16

All funded research programmes must be in compliance with the ethics-related legal provisions in force.

Article 17

Holders of a part-time CSD fellowship must respect the discipline enforced by the academic authority of the institution where they work and observe its rules and regulations. As fellowship holders of the F.R.S.-FNRS, they are also required to adhere to the regulation on the property, protection and promotion of the results from the research carried out within the institution.

Article 18

The F.R.S.-FNRS may, at the request of a holder of a part-time CSD fellowship noticed by email to bourses-mandats@frs-fnrs.be, give agreement to spend a maximum of 12 months outside the Wallonia Brussels Federation (FWB “*Fédération Wallonie-Bruxelles*”) if the following conditions are fulfilled:

- Be employed on a full-time basis in a hospital in the FWB;
- To include the duration of their stay outside the FWB in the time allocated to their research activity;
- Submit the prior agreement of the promoter and the training supervisor or the head of the clinical department to the F.R.S.-FNRS (and of the academic authorities in a case of a long-term stay of 90 days or more).

Lastly, the insurance will be entirely at the personal expense of the holder of a part-time CSD fellowship.

Article 19

By the time of each renewal application, holders of a part-time CSD fellowship are required to provide a report on the scientific activities. The report must clearly indicate the distribution of time between their research and clinical activities.

At the end of the fellowship, part-time CSD fellowship holders shall communicate a final report to the F.R.S.-FNRS. This report is to be uploaded on their personal [e-space](#) page.

CHAPTER V: FINANCIAL PROVISIONS

Article 20

The hospital where part-time CSD fellowship holders carry out their clinical activity is their employer and shall remunerate them.

The F.R.S.-FNRS will reimburse half of the full-time annual cost of the part-time CSD fellowship holder to the hospital upon reception of the supporting documents. Cost (on-call duties not included) includes salary cost plus all direct and indirect salary costs.

The F.R.S.-FNRS reimbursement is limited to an annual amount assigned from the F.R.S.-FNRS³.

The hospital-related salary of part-time clinical doctors who are also researchers can be higher than the research-related salary.

³ Limitations in force are detailed in the Grants and Fellowships Call mini-guide.
